User/Installer Responsibilities							
It is important to understand that the existence of this document alone does not automatically constitute authority to install the part/component/assembly.							
Where the user/installer performs work in accordance with the national regulations of an airworthiness authority different than the airworthiness authority of the country specified in Block 1, it is essential that the user/installer ensures that his/her airworthiness authority accepts parts/components/assemblies from the airworthiness authority of the country specified in Block 1.							
Statements in Blocks 14 and 19 do not constitute installation certification. In all cases, aircraft maintenance records must contain an installation certification issued in accordance with the national regulations by the user/installer before the aircraft may be flown.

Subject: RE: Need detailed Information - Dart shoulder harness assemblies. 4-point metal to metal

I've updated SB08-1 to rev B to tell people to remove anything that does not have SSPxx07 or 08 from their helicopters.

From: Susanne Sheldon [mailto:ssheldon@dartaero.com]

Subject: FW: Need detailed Information - Dart shoulder harness assemblies. 4-point metal to metal

During the conference call on June 4, 2008, Marc Mitchell indicated that Schroth/BAE have full confidence that all buckles with lot codes of SSPxx07 and SSPxx08 conform to design and will not fail.

Please reject all buckles with other than these SSP codes. Also reject all buckles with any flaws, cosmetic as well.

Susanne

Subject: RE: Need detailed Information - Dart shoulder harness assemblies. 4-point metal to metal

All replacement buckles sent to date have lot code of SSPxx08. I cannot be more specific than that without extensive research. This should be specific enough for what you need. Please let me know if I need to have Germany research further.

Thanks,
Marc Mitchell
